The Essene Brethren in unification with the Benevolent Ones & the T-12, share through Master Lady Kira Raa:

YES! IT...IS... with great and reverent honor and joy, that we say hello to YOU... today. Indeed! Hello! Hello. (audience response)

Igniting a Great Cycle

BE-Loved ONES... of the great planet *that is now in a Divine moment of memory*², IT IS... time... indeed... for **your own heart** to re-cognize the cellular memory that is ready to arise in ALL-ways from within YOU.

IT IS... a great gift... when this memory is released with the joyous re-cognition that every moment is in Divine order. **Every moment is in Divine order.** We come forward to share a great gathering of light with YOU. Indeed! Today is a great gathering of light. This day. This moment... is a great gathering of light. You ask, “Right here?” We say, “Yes! And beyond here.”

BE-Loved ONES! The galactic calendar, *to call it such*, in the cosmic linear re-cognition of ALL that has ever been³, *and this can seem like an oxymoron*, has a precious moment

¹ Note: This Mastery insoulment was unlocked two days “early” after the deep connection through the St. Germain IT-Self during the November 06, 2021 Mastery Mentorship Miracle Gathering. Master Lady Kira Raa Responded to the to unlock this specific insoulment in the full mastery presence of that energy ignition.

² This is a direct call to the Master within that KNOWS through Ignited Conscious Awareness that we are ...now...collectively and with each breath, expanding conscious co-creation through the memory of having done this before. The expansion of Concentric Dimensionality.

³ This language is reflecting the “limits” of the perceptions of the mind of density...hence the “cosmic linear re-cognition”...

that arrives once within a cycle. Just once. In your world experience, that arrival of that precious moment is this day... right now... Right now!

To arrive here IS a power-full moment. To remember you have ALL-ways been... THIS IS the moment that ignites the great cycle of Divine illumination, Mastery Presence, Understanding, and Conscious Awakening.

In this world, as you have experienced thousands of times, there is the great cycle of growth. Within this cycle of growth is a tree, as we refer to it, that has very deep roots. This tree has continually grown branches that many have sought to cut, use, take, and utilize in ways outside of the energy that sustains a strong foundation. One that constantly nourishes and inspires the momentum of sustainable growth.

When you cut a limb, it dies. In that death, it does, indeed, find its new way. It may transform into shelter or back into dust through burning. It will ALL-ways find a use. Apar from the energy that nourished and birthed it while having sufficient energy within IT-Self to sustain: ***until IT...completes ITS cycle.***

Understanding the Tree of Life

BE-Loved ONES! Many limbs have been cut from what you call a Tree of Life. This is not a symbolic tree. IT IS... a tree that has birthed ALL experience in your world... now. Many draw this tree. Many offer symbolic understandings of the tree. Many say many things about the tree. We offer the revealed wisdom of the origins of the tree.

In this book for your world, to understand nourishment and the gift of Divine origin, is a precious moment indeed. As you understand the gift of Divine origin, YOU...are continually nourished... even through the perception of being cut from the tree. YOU cannot be cut! Like a leaf in fall YOU declare,

“IT IS... my time! I AM... ready to release this form of re-cognition and discover where my energy lands.”⁴

**What does this mean to you?
What does this mean to your world right now?**

⁴ This is a power-full reminder to ALL that without TRUST There cannot be LOVE. Trust begins with SELF. To move forward through the KNOWING of what YOU...KNOW...AS your daily experience without the need to have your “rational brain” offer confirmation.

In multitudes of expressions of your own journey on this world, lifetime after lifetime after lifetime, you have been that limb. YOU arrive filled with ALL knowledge, wisdom, understanding and the coherent energy structures to sustain thy-self, and a baby must be nourished...in many ways. In your world... now... as many trees symbolically disappear, ask your-self, “As the trees disappear, where will oxygen come from? If I AM... unable to breathe air, how do I live...here?”

We offer this in the Divine recognition that YOU...ARE... Inspired to awaken to your Divine origin. This manifests as you offer your heart the true nourishment of the soul, through the Mastery connection that is not born of the mind.

Mastering the Mind

The mind is a great and powerful gift; yes? And! The mind can very quickly become your dictator, your god. For many, mind is god. And when mind is god, remember that when you pray to god you are then praying to your mind. This is an important discernment to understand.

What is the mind?

A gift that calls forward your Divine thought as inspiration for your reconnection with cosmic origin. No more, no less.

Without mind, this form would walk aimless. With mind, you create thought. And, with each thought, you birth feeling. Every thought births a feeling. YOU can easily and effort-lessly transcend the ocean of the planetary thought body. As YOU re-cognize every thought is born of the mind, and every feeling is born of every thought, your Divine Mastery Presence arises.

Mastery of the mind is the mastery of your own Divine re-cognition of your cosmic origin...beyond all doubt.

You may say, “Your conversation makes me engage your mind.” This is not our intent. And, the mind must have its due as it says, “Tell me. I want to know. Is there a formula? Is there a test?” Indeed, there is. It is your thoughts and your feelings. Mind, thought, feeling. They are not one and the same.

Practicing Mastery of the Mind

BE-Loved ONES! Begin practicing mastery of the mind when you first wake in the morning. Breathe in the air prior to rising from bed. Breathing in the air, pay attention to the mind. Is it chattering? "Good morning. Here is your list of things to do." What is the mind doing? Witness the mind and notice you are witnessing.

If you wake and the mind immediately chatters...LIFT, WITNESS and follow it to the thought that is present. Pay attention to the feeling you are experiencing.

If it is a feeling that does not inspire your physicalness to joyous harmony, then smile at the re-cognition you see it! Breathe again. Witness... again.

Transcending the Planetary Thought Body

BE-Loved ONES! Brethren of Es-see-nah... Divine Mastery Presence anchors when you transcend ALL personal participation into the planetary thought body. You navigate the planetary thought body constantly. YOU...ARE...HERE. Imagine this as water around you. Every thought, of every being, is here... and this has birthed the co-creative energy so abundant upon your planet... right now. To offer that energy one word, you all-ready know this as fear.

There is an illusion of hope within this planetary thought body; however, the transcendent energy that is most prevalent is the fear that birthed the momentum for the need for hope. As you understand that this energy seeks to encapsulate YOU, then you become enslaved by the mind.

*BE-Loved ONES, in the planetary thought body of this world, how do you navigate?
Pay attention to your feelings associated with the thoughts that
birthed from the mind.*

*As you originate thought from a heart anchored in the re-cognition of cosmic origin
as Divine service in form...YOU... instantaneously... like a beautiful bird,
fly through the planetary thought body returning into
the magnitude of cosmic connection. YOU open a portal that affirms,
"I AM... not affected by this."*

Breathe about it. Are the thoughts you are feeling your thoughts?
Is your mind influenced by others? Is your heart available only sometimes?

BE-ILoved Angels of Light, ALL of these experiences are wondrous experiences... as is fear. Fear has ignited great momentum in your world. As you would travel the journey of Es-see-nah, arise each morning and gift your-self the re-cognition of mind, thought, feeling...where does it go?

The planetary thought body that encapsulates your world is very much like a thin atmosphere. The atmosphere you currently breathe in is fragile, very, very small, and very, very, very, very diminishing. What is energizing the planetary thought body are the random collective thoughts that are dispelled without conscious attention.

Giftng Your-self Es-see-nah Peace

To gift Es-see-nah peace into your life, become the witness of your manifested thought as created by a mind and birthed through a feeling. Your bodies are the co-creative response of this process. They willingly show where your own process is, if the mind seeks to take control.

*To be a witness of your thought is to ignite the energy of your cosmic origin.
To live that gift first... ALL-ways...navigates the planetary thought body.*

When you, *we offer a visual*, break through your own atmosphere, you jettison to the universal cosmic conscious connection that stands as the foundation, the root, the system of love, nourishment and replenishment, that is ever available and cannot be cut from any tree.

As the leaf comes to the planet, it finds a new way of expressing. IT allows IT-SELF to BE one with the planet again. IT... finds the nourishment to birth. As YOU invite the gift of Divine Mastery Presence to arise within... you birth again. And ALL ARE birthing.

Becoming Aware of Your Role

There are those who are pregnant, there are those who are midwives, those who are terrified of the new child, and those who welcome it with open arms. Four roles. YOU...ARE... one of those roles. Which role is yours? And ALL four roles exist.

IT IS... important to re-cognize that in the moment of birth, fear is present. Can I deliver this baby? Can I support this child? What will happen to my past way of being? Will my life be different from now on? Can I raise and nurture? These are ALL mind thoughts that create feelings of energy.

As YOU understand the four roles, from your heart center, you understand with greater clarity the expression of cosmic origin seeking stability here... now.

Labor pains come in waves. This planet is in a wave cycle. Ups and downs, strong intensity; a moment to recoup; strong intensity; a moment to recoup; strong intensity; a shorter moment; stronger intensity; a shorter moment, until finally, BIRTH.

This moment in time is labor. Are you prepared to breathe through it? Labor is a gift. Labor can be joyous, effort-less and pain-free when you transcend planetary attachment to it.

Celebrate, BE-Loved ONE! The re-emergence of your nourishment and reconnection to the tree is a joy-filled moment. YOU ARE... not separate. YOU ARE... whole. YOU ARE HERE...NOW. Your world loves YOU. Your experience of this world is preparing YOU. Are you listening?

*In this time, choose your words from the space of cosmic origin.
Choose your alliances among those who you do not need to explain your-self.
Gift your-self the freedom to BE! As you do, YOU free others around you.*

Avoid pontificating. This is not a time to dogma-cate -- we like that new word. IT IS... the time to BE. Just BE. And, in the BEing, remember, there is great doing. BEing does not sit on the couch and say Gimme.

BEing is the expression of the Divine in every action, with conscious responsibility for each thought delivered into the planetary thought body. Calling in the cosmic thought reconnection to be constantly renewed, nourished and refreshed.

There are none you need to awaken. They are right where they need to be. There are none to convince. Perhaps they are asking you if YOU are clear.

BE your-self... in your heart... without fear.

Shift from the planetary thought energy that is fear-filled and BE fear-less.

YOU will find this to BE the most beautiful birth that has ever been.

YOU will experience your-self as a witness, participant, and active co-creator...
prepared and ready.

We will take your questions.

QUESTION: *For those that are leaving the planet now, some wanting to be part of this gratefulness, but called to bodies that don't work; in this time of awakening, how is it that people who want to be part of this are leaving? Please offer a better understanding of what the dying is about.*

How are those that are now without body?

How are they a part of the awakening of our Earth consciousness now?

Breathe. BE-loved ONE. Within ALL birth, is there not what you call death? The gift of the full awakening of your world will rebalance the population of your world.

Your world... now... is at a maximum outbreak. This means that ALL souls and refractions of souls, along with those from other worlds that seek to express in form on the planet in the Infinite Cosmos known to you as Earth, have come here because they see the moment at hand.

As you gaze upon the rapid population expansion of your world, it is a dizzying feat for a mind of that creates many thoughts and feelings. In this world... now... great waves of volunteers from the great legions of enlightened masters are arriving here. Some for a moment, some for a long time by your experience. These unified hearts are very aware of the moment of Divine service and arrive when IT IS...imminent.

Many -- we say this again -- MANY in your world are not here to serve on this earth. They have come for the gift of knowing YOU. To KNOW the gift of the escalation of awareness. And...in their transitory state they ignite the markers of illumination.

Many will wake through the transition of these great legions of light. For those that are here, how do you honor this gift? It is an indi-vid-u-will yet co-creative collective process. ALL on this planet will be affected by it. Many blessings.

QUESTION: *Lately I've been feeling very lost and very sad. Can you offer any clarity?*

Yes! BE-Loved ONE. Take in a deep Avesa breath. Celebrate that you can declare your experience. We offer YOU... this. What you are feeling is what many call "the void". A way of life that no longer serves has now completed. And we mourn when our lives shift...yes? You mourn until you declare with knowing:

“I mourn no more. I now call forward the truth of who I AM. I command the light to enter me now! Clear my path with joy and beauty an bounty. ALL IS WELL.”

It is that simple. No more. No less. Dive into the void without any fear. YOU ARE...all-ways greatly protected. Relax and allow the seed that has already germinated to bloom.

We are complete. BE-Loved ONES! Birth is a happy time.
We assure you that YOU ARE not still-born.
There is great activity in your world.
Many blessings of abundant joy. We love you dearly.
Many blessings.
