“The Beloved”

*Delivered at the TOSA Self-Ascension Center

Through Wisdom Teacher Sri Ram Kaa & Angelic Oracle Kira Raa
May 2013*

The Blue Starborn as the Divine Cosmic Brethren speak:

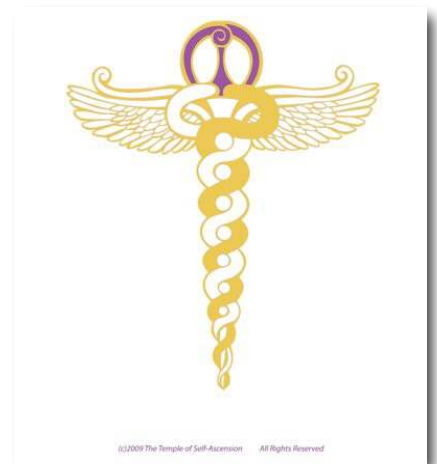

Hello beloved angels of great light, presence, joy, unity, and Beloved energy. Indeed the energy of the Beloved is rich with thee now. The energy of the Beloved is ever-present with thee now.

The energy of the Beloved is thee now.

The Entwined Energy of the Beloved

We come to thee today as a stream of divine cosmic brethren. We are, let us say, twined. And we say this because the energy of the Beloved is ever entwined. In your world you have the energy of what you call the caduceus.

And in the caduceus is a healing because it is the energy of the Beloved ever entwined. We sing to you through the hands of this one today. We offer to thee great energy through the hands of this one today. We allow the energy of this to breathe slowly to thee to feel the energy of divine presence, to understand that to swim in the harmony of the divine universe is to be ever spiraling entwined in the energy of the Beloved.

Even your DNA as you believe it to be, as it reveals itself in the form of density, is a dance of the divine twirling as the Beloved.

In the world of illusion, in the world of density, we, the ones you call Blue Starborn, we the ones who melt into the Crystalline Beings of Divine Light, offer to thee now the great connection into the eyes of the Beloved.

ARCHANGELIC INSOULMENT

**We gaze into your eyes now¹.
We offer to thee now the eyes of the Beloved.**

***In the eyes of the Beloved, the two become one.
The two become one.
And when the two become one, the one and the one remain one again.***

Gaia is Shifting

This is a powerful moment for thee. It is a powerful moment for thee because the Gaia that lifts you, the Gaia that you trod, the Gaia that you swim in, the Gaia that you take breath through, is in the moment of great shift. Many may say, "How can there be great shift?" We say, "How can there not be?"

For when you arise, when you go from the moment of sleep and wake up in the morning, there is great shift. You are constantly shifting, your planet constantly shifting. In the energy of the divine blue world with green overtones is the expansiveness of the union of the Beloved entwined.

***The Beloved entwined.
You are the Beloved.***

ARCHANGELIC INSOULMENT

And when you step into the energy of the Beloved, there is a moment of divine stillness that bursts into action. These bursts of divine action are activating all around your planet now. Little bubbles bursting open, and as they do, many are finding and discovering, and recognizing energy within that they have not realized before. With the bursting and arising of these bubbles of divine energy, there is a great and profound moment of, we will use the word, discovery.

Seeing the Truth of your Cosmic Divinity

Chambers that have never been known will be seen again.

However, beloved angels, by the time you have been informed of this, in and of itself, the informing is a method of disarming your truth. Feel into your heart now. Go to the sacred places that are sacred for thee, sacred places that on this world were built eons ago for you to connect with again. Trust your guidance within these sacred places. Trust your heart when you trod on the ground. Trust your heart when you discover that which has yet to be discovered by another. Bring the energy of the Beloved with you and let it be revealed.

More and more of the ancient disks that have carried much energy from our communication through the communication of our ancestry to your ancestry have been discovered and already being, word we use, decoded, by those who wish for you not to be aware of these discoveries.

Within these discoveries, your cosmic presence is undeniable.

And so when it is released that a new chamber has been found, when it is released that a new room has been discovered, what will not be released is the, let us say, treasure trove of divine revelation that is in the hands of a few and kept in a box away from your own view.

And so beloved angels, the only way to truly see this energy is to clear the eyes, clear the eyes, clear the eyes. Notice as we offer you this energy, we are clearing more than physical eyes.

These physical eyes are but doorways to your true vision.

Clear the eyes, clear the eyes, clear the eyes! Ignite the Beloved soul. Bring forward this energy with great presence. Become the explorer of your own divine cosmic heritage, for we are here with thee again.

The time of Divine Revelation is here

We come only at the times of the Divine Revelations. You are now in the time of Divine Revelation. It is no accident that you are here now. It is no, let us say, divine mistake that you chose this world, this timeline, this insertion.

You are living in the moment of divine revelation, and whenever there is the moment of divine revelation, all that has come before feels the revelation as a compaction.

***Because the revelation takes all that came before and blows it away.
It is sand beloved angels. It is but sand.
It is but drops of crystalline dust in the world of divine magnitude.***

There is great energy abundantly available for you to wave, be, float, experience, explore in this world now. And as you would offer to yourself the gift of the wave, the gift of the exploration, if you are able to trust your divine presence, if you are able to clear your eyes, if you are able to take active presence from the stillness moment, if you are able to become the explorer, then you will indeed find, because it is the moment of the unified Beloved.

You are the unified Beloved.

Your DNA is activating into a harmonious dance, a divine union, a divine presence.
You are part of the ignition.

This planet has much, much, much, much harmonic vibration around it.

This harmonic vibration continues beyond...beyond...beyond. It is simply the vibration that is expanding.

Let your heart expand with the vibration now, and as your heart expands with the vibration now, you will expand with the vibration of the planet.

Or you can close your eyes and densify and stay compacted, for the revelation feels like a compaction to all that has come before. To resist revelation is to compact, to take in, to become ever more aligned with density. And this is a journey, and many will choose this journey, and this is okay.

And to open the harmonic realms of Beloved energy is to journey through expansion and release.

You are the Beloved.

We invite thee to see this.

Gaze into our eyes again.

Feel our love and presence.

Discover the truth deep within.

Pay attention to that which is being revealed, and become the explorer of your world, your heart, your cosmos, through the unification of your presence. We offer to thee great energy.

We invite thee to reconnect with us at least six more times this way so that you may truly feel, see, experience, know and discover the codes of the divine cosmic realms which we offer to thee today.

You, beloved angel, are ready. Your DNA is igniting beyond this world.

Take in a breath. And remember. For YOU ARE the Beloved.
