The Crystalline Beings of Divine light speak:

Hello beloved Angels of great light, love, and fluid time.

The fluidness of all time is upon thee now, and it is with great reverence and great joy that we come forward to share with thee that it is of great value to recognize the fluidity of time.

Time has great, let us say, interpretations in this world of linear thinking and density.

***Yet time, in and of itself,
is a construct simply to assist in the manifest form of the divine crystalline being.***

To assist this form is to offer a method or a way to stay, let us also use the word, *attached* to this planet.

Attachment comes through (linear) time.

How much time do I have?
How long will my life be?
What is a measure of time?
Units of time.

Everything allocates to a moment in time, a day on a specific calendar, and yet, there is the great illuminated peace within that recognizes the undisturbed nature of your true tranquil being-ness as a limitless expansionary being of crystalline energy that is without time.

Because time only exists in a form that is comfortable to interact with here on this world.

Points of Light

In the fluidity of all time comes a moment of overlap of all points.

Imagine many, many, many, many, many points of light, each having their own expansionary experience, floating and spinning and moving rapidly, pounding and being.

Even in this moment around you now with most of the eyes in this world who cannot see that there are an infinite number of points of light that are moving around at the very rapidly, some of them moving more rapidly than others.

Some of them still.

And the ones that are still form what you feel is this body, form what you feel are the structures around you, and yet all of it is its own vibration, all of it is fluid.

If you allow yourself to move the fingers in a gentle manner as we are demonstrating for you now, you can begin to sense, see, or experience, the energetic movement, the fluidity of all, you say, particles. These particles have so many names. Atoms is one name. But it is just a name.

These particles that are moving, these crystalline sparks of divine energy are able to open up portals of vast multidimensional expressions for thee when the total structure of the physical form is fluid in time.

Fluid in time.

To be fluid within time is to accept universal harmony.

And in the floating of the universal harmony, experience thyself now as limitless, floating, levitating, and simply being.

Remembering how to Dematerialize and Float

To enlighten the physical form through water,
pure breath, pure thought, expansionary view,
limiting connection to dense conceptions,
limiting your exposure to that which seeks
to claim thee away from this moment of divine floating.

Feel thyself now floating, perhaps floating on a gentle river.
Perhaps floating in the flow of the cosmic universe.
Perhaps simply lifting up out of thy chair now,
lifting, floating, breathing in through your nose, the nose.

Breathe in through the nose and feel the breath lift and ignite thee.
To be in fluid time is to be in the recognition that all illusion is,
and has always been, and will always be, simply illusion.

To allow a concretized experience, to be frozen in time, stops the molecules, stops the movement, and crystallizes something inside of thee that creates the attachment. For with many attachments, the *you* that is in the experience you are in now...frozen.

And with frozen structures and with frozen attachments, there is a binding to an experience that is one that is limiting and yet of course part of the greater experience.

Many choose multiple layers of frozen experiences to stay in an expansionary cycle in a specific experience until there is a moment of vast memory.

Remembering Your-self

We come here today in your moment of linear time to break open a window.

Hear us opening up a portal.

Hear the harmony.

Hear it open right now.

Gaze between our hands and see the greater light that is emanating into you now¹.

¹ We suggest viewing the video of this Insoulment, (available at www.SriandKira.com), to capture the full beauty and depth of this energetic process. If that is not feasible, simply take in a deep breath and raise your hands in front of your eyes gazing at the palms and then slightly separate the fingers and gaze between them.

***We come today to invite thee to remember beyond the time when time mattered.
We call to invite thee to remember the cosmic heritage within, to experience thyself floating always, to
experience thyself free of the limitation of body, form, pain, emotion.
To experience thyself in the tranquil nature of the divine cosmic being this from which you are.***

If you have chosen to see, view, read or hear this message now, whether you feel you are here to be skeptical, whether you feel you are here to disapprove, whether you feel you were called here as part of the divine mission, whether it is the first time or the thousandth time; if you are here in this moment now, you are not of this world, and you are a being of divine cosmic crystalline nature.

You carry with you a deep beautiful blue jewel within your heart whether you have activated or connected with it or not. That jewel is a cosmic seed that carries with it great wisdom.

We come solely today to invite the to remember...To remember.

And, if everything inside you now says I must shut this off, stop reading, run away, it is okay. It is okay.

And, if everything inside of you now says yes, yes, yes, I am remembering more. I am remembering for the first time, the second time, the hundredth time, I am taking my expansion beyond, it is okay.

***Because our connection is beyond this world.
Our connection cannot be severed by the illusion of this world.***

Perhaps there are simply many more frozen moments in time that are being called to you to stay attached. And perhaps this moment, we open again the portal for you to hear the harmonies. Hear the harmonies as we open the portal.

And perhaps this is the moment when all attachments melt. When the tears of divine recognition may flow. When the cosmic heart births with great resonant joy and you are able to say:

"Yes. Yes! I am free. I am free. I am free. I am free!"

Dissolving Into Freedom

Your freedom is a gift when you are able to honor, recognize, see, and BE with this freedom while your form is still in in-joying density.

*Enjoy the densified experience carrying the full memory of the cosmic journey, and you are able to become the instantaneous miracle maker.
You are able to wake up and be clear.*

Cosmic lifetimes that have brought you here, the lifetimes that have been frozen pieces of you here open wide and there is a glorious freedom for the blue jewel comes forward and manifests, and grows, and ignites, and lifts, and lifts, and lifts, and lifts.

Time is fluid. You are fluid.

All of the crystalline light that is showering around you now, that you see around you now, that is igniting around you now, is calling you to remember.

Allow your hands to dissolve before you.

Simply gaze, gaze at one fingertip and watch the light, feel the light come forward. Notice the fingertips dissolve. Allow them to become less dense. Remember thyself as the fingertips are ignited and offer this energy.

Float.

Because you are always floating.

*It is only the illusion that believes there is a form to hold the form.
Express your life in floating motion and discover that there is nothing to be feared.*

Awaken and Notice

All of this world; events, moments, experiences, fragments, are simply little seeds that are planted as part of the collective journey of divine expansion.

To navigate this world in full divine presence and memory of your divine truth is to allow thyself the blessing of your divine nature and thereby freeing others to have this blessing as well.

Beloved Angels! Beloved wisdoms! Beloved masters!

Beloved being of divine crystalline light, feel the message now beyond the words².

You are the harmony.

You are the journey.

You are the light.

Notice thy hands right now. Feel them.

Notice thy heart.

Feel yourself floating.

Time is fluid and you are fluid with it.

Awaken beloved one! Awaken more!

Awaken to the level of divine comfort
that is in front of thee right now.

And as you do, celebrate that all is on the perfect journey.

That you are divinely guided,
and eternally filled with wisdom.

We love you. We support you.

We are ever present for you.

We are merely a breath away and a conscious connection.

And so it is.
